For the 12 Months Ending December 31, 2009		\$581,536,963
Projected Retail Return On Average Common Equity		
For the 12 Months Ending December 31, 2009		13.10%

The Common Equity as of October 31, 2009 (Actual) was adjusted using net income, payment of Common Stock and Preferred Stock dividends, Capital Contributions, and Other Adjustments from the Company's 2009 budget. The average common equity is a 12-month average using actual and budgeted data. The average retail common equity (RCE) was calculated using an estimated retail separation factor of 88.70%. The retail net income (RNI) for average common equity was calculated by using actual data for the ten months ended October 31, 2009, and then adding two months of budget data for November through December 2009. The Other Adjustments added to projected common equity is the result of the Company adopting FASB Statement 123 (R), which requires the reporting of stock option expenses.

The Forecast is subject to change due to uncertainties associated with weather, customer usage patterns, and economic conditions across the state.

MEMORANDUM

TO: Commission President Lucy Baxley
Commissioner Jan Cook
Commissioner Susan D. Parker
Division Directors

FROM: Legal Division

SUBJECT: Supplemental Agenda (1) - December 1, 2009 Commission Meeting

The Legal Division will present the following at the December 1, 2009 Commission Meeting:

DOCKET 28160 (M) - Petition of J. Gaddy Trucking to suspend operations under Motor Carrier Certificate F2438 for a period of one-year.

Recommend: Grant one-year suspension

DOCKET 31045 Docket 31045 (M) - Consideration of §§532 and 1307 of the Energy Independence and Security Act of 2007. Comments were received and reviewed by staff.

Recommend: That the Commission not adopt the standards set forth in §§ 532 and 1307. The staff has reviewed prior Commission action with regard to these proposed standards and the comments filed in this Docket, and has determined that with regard to the proposed standards concerning Integrated Resource Planning and Rate Design Modifications to Promote Energy Efficiency Investments, the Commission adoption of the RSE mechanism over 25 years ago achieves the general goals set forth in these standards. The staff has determined that with regard to the standards concerning Smart Grid Investments and Customer Access to Smart Grid Information it would be premature to adopt these standards at this time due to uncertainties and unresolved issues surrounding smart grid technologies. Because it was not clear in the original Order establishing this Docket and the Order requesting comments that the Commission was also considering the proposed standards in §532 for natural gas utilities it is further recommended that the Commission leave this Docket open for comments on the §532 natural gas standards for an additional 45 days.

DOCKET 31092 (M) - APSC v. Benchmark Communications, LLC, d/b/a ComOne, et. al. Show cause proceeding against carriers that failed to file interconnection or resale agreements. Reliant Communications, Inc., d/b/a HJN Telecom, Inc. voluntarily relinquished its Certificate of Public Convenience and Necessity to provide Competitive Local Exchange Service pursuant to Order dated November 3, 2009 in Docket 26563.

Recommend: Dismissal from this proceeding.
